

## EXPERIENCE

---

- **Fraunhofer Heinrich Hertz Institute** Berlin, Germany  
*Student Researcher – Applied Machine Learning* 04/2022 - Present
  - **Data Engineering:** Build large, custom datasets by implementing fetcher and preprocessing units to periodically retrieve data from varying sources using Python and Pandas. Implement and maintain a robust and dynamic PostgreSQL database using SQLAlchemy.
  - **Neural Network Modelling:** Develop, implement, and tune graph neural network architecture for dynamic traffic flow prediction using PyTorch.
- **Fraunhofer Heinrich Hertz Institute** Berlin, Germany  
*Student Researcher - Photonic Components* 02/2019 - 03/2022
  - **Neural Network Modelling:** Develop UNET object detection model for detecting defects on wafers using PyTorch.
  - **Laboratory Experiments:** Execute and analyze experiments for optical modulators. Train new working students in laboratory skills.

## PROJECTS

---

- **3D Aneurysm Detection:** Develop 3D Semantic Segmentation Convolutional Neural Network model for 3D Aneurysm Detection with a F1-Score of 0.39. Execute and track experiments varying the data augmentation, loss functions, and hyperparameters.
- **Arena-Rosnav:** Build modular training and deployment pipeline for seamless integration of different DRL models and different robots with Python and C++. Develop a custom gym environment. Develop and deploy DRL-based agents for dynamic obstacle avoidance with success rates of 95%.
- **Implementation of RCPO:** Implement Reward Constrained Policy Optimization (RCPO) into stable-baselines3 implementation of Proximal Policy Optimization (PPO) using PyTorch. Reproduce results through experimental tracking using weights and biases. Write and submit respective article to the ICLR Blog Track.
- **YouTube: Boris Meinardus:** Documentation of personal Machine Learning progress. Lectures on Machine Learning theory. Development and demonstration of Machine Learning projects. Advice on entering the field of Machine Learning.

## PUBLICATIONS

---

- **Arena-Bench:** Robotics and Automation Letters (RA-L) Journal, 2022  
L. Kästner, T. Bhuiyan, T. A. Le, E. Treis, J. Cox, **B. Meinardus**, J. Kmiecik, R. Carstens, D. Pichel, B. Fatloun, N. Khorsandi, J. Lambrecht
- **Simulation framework for EtherCAT over TSN:** IFIP Networking Conference (IFIP Networking), 2021  
B. Balakrishna, **B. Meinardus**, L. Kontopoulos

## EDUCATION

---

- **Technical University of Berlin** Berlin, Germany  
*MSc Computer Science* 09/2021 – 08/2024
  - **Relevant Courses:** Deep Learning 1, Machine Learning 1, Automatic Image Analysis, ML in Medical Image Processing, Advanced Topics in Reinforcement Learning
- **Technical University of Berlin** Berlin, Germany  
*BSc Computer Engineering; GPA: 3.0 (84.5/100)* 09/2018 – 08/2021
  - **Thesis:** Deployment and Evaluation of Deep-Reinforcement-Learning-Based Navigation Approaches on Real Robots
  - **Relevant Courses:** Algorithms and Datastructures, Introduction into AI

## SKILLS

---

- **Programming Languages:** Python, C++, SQL
- **Programming Frameworks:** PyTorch, OpenCV, Huggingface, Pandas, NumPy, Matplotlib, Seaborn
- **Technologies:** Deep Learning, Computer Vision, Weights and Biases, Docker, Git, GCP, Linux
- **Languages:** German (Native), English (Full Professional Proficiency), Bulgarian (Native), Mandarin (Elementary Proficiency)
